BookIT® Room Scheduling Solution

Elegant, cost-effective system directly integrates with MS Exchange™ and Google™ G Suite

This elegant, cost-effective and easy-to-deploy system is designed for scheduling any conference room on a network from a BookIT touch panel located outside a meeting room, your mobile device or computer. Its sleek design fits into any décor and the intuitive interface requires little to no user training. BookIT directly integrates with MS Exchange™, Office 365™ and G Suite™, so no additional server or middleware is needed, simplifying implementation and significantly reducing cost.

System Includes: 7" BookIT PoE touch panel device, a wall mounting system (bracket included), BookIT Room Scheduling Software and power adapter (when PoE is unavailable).

BookIT: Application Features

- **Calendar** Clicking on the calendar lets you see meeting details for any room in the Calendar and Add Event screens. The list is scrollable so you can see out to the end of the booking period allowed in Exchange or Google.
- **At-A-Glance** Color-coded room status of red, gold and green lets you immediately know the availability of a room.
- **Schedule Meetings** Select "Add", enter your credentials and you can now schedule a meeting in any available room at any available time.
- **Meet Now** Allows booking of a room without logging in. Events are entered in the room calendar, only so the room is seen as occupied.
- **Meeting Check-In** If nobody checks into the room within the configured amount of time, the room will automatically release for others to use. This feature can be enabled, disabled or configured at any time by the administrator.
- **Release Meeting** Your meeting's over early? Make the room available for others by simply releasing the room on the BookIT touch panel display. The end to your meeting will automatically be updated for others to see. Only meetings in session can be released from the BookIT display.
- **Extend Meeting** Extend the meeting on the BookIT touch panel display. You can extend the meeting for as long as you need based on the room's availability. Only meetings in session can be extended from the BookIT display.
- **Delete Meeting** It's easy to delete a meeting from your phone, computer or at the BookIT display. Only the meeting organizer can delete a meeting. Only meetings in session can be deleted from the BookIT display.
- **GUI Options** Easily replace the BookIT logo with your own logo. Also choose from different background options.
- **Support** Have a technical issue with a projector or a display? Just touch "Support" and send a predefined message to summon your internal technical support team to the room.
- **Multiple Languages Available**

BookIT Configuration:

- **Guided Outlook and G-Suite for easy Setup**
- **Set master password for Admin Settings access**
- **Enable and disable meeting warnings**
- **Adjust and turn off auto release time**
- **Control ability to book a meeting from the sign**
- **Scheduled hibernation mode for prolonging the screen life**
- **Change BookIT logo on display to your own logo**
- **Change the displays background pattern**
- **Configure content and addresses for technical support**

Part #	Description

BTX-BOOKIT1YR	BookIT 1-Year Extended Software Maintenance
BTX-BOOKIT2YR	BookIT 2-Year Extended Software Maintenance
BTX-BOOKITRMB	BookIT Recess Mount Bracket (set)
BTX-BOOKITWM	BookIT Switch Box Mount
BTX-BOOKITMM	BookIT Mullion Mount

2 year hardware warranty included along with 1 year of software maintenance.

Model Number – BTX-BOOKIT07

Hardware Specs	CPU	Cortex - A7 Quad-Core, 1.2GHz
	Display	7 in. IPS LCD Display, 1024 x 600, Brightness: 350 cd/m2
	RAM	1GB
	Nand Flash	8GB
	Dimensions	7.2in (l) x 4.8in (h) x 1in (d) - (182mm (l) x 121mm (h) x 25mm (d))
	Operating Temperature	0°C to 50°C
	Storage Temperature	-30°C to 80°C
	Certification	FCC
Android Software Features	System	Google Android 4.4.2
	BookIT Software	Version 2.0
	Video	H.264 2160p video decoding, Multi-format FHD video decoding, including Mpeg1/2, Mpeg4 SP/ASP GMC, H.263, H.264, VP6/8, AVS jizun, Jpeg/Mjpeg, etc., H.264 High Profile 1080p@30fps or 720@60fps encoding, 3840 x 1080@30fp 3D decoding, BD/SBS/TAB/FP supported complies with RTSP, HTTP, HLS, RTMP, MMS streaming media protocols
	Audio	Two Speakers 2 X 1 Watt (Integrated 3W Amplifier For External Speakers)
	Language	Supports multiple languages
Interfaces	Back	HDMI Out: HDMI out work concurrently with local screen
		DC IN Power Terminal (9V-36V)
		Ethernet Interface (RJ45) with PoE
		USB Socket HOST Mode By Default
Network	WiFi + Bluetooth	WiFi (802.11b/g/n), Bluetooth V2.1+EDR/BT v3.0/BT v3.0+HS/BT v4.0
	LAN Port	Ethernet RJ45
Power Supply	DC IN	DC 9V - 36V
	Rated Voltage	DC 12V Adapter, UL Listed
	Rated Current	500mA
	Rated Power	6W
Boot Up	Auto Boot	Auto boot up upon being powered up
