

Part Number	List Price
CD-SLIM15F ("Slim" HD15 female)	\$13.95 ea.
CD-SLIM9F ("Slim" DB9 female)	\$13.95 ea.

DESCRIPTION:

BTX Introduces New "Slim" Patent Pending Solderless VGA & DB9 Connectors.

BTX Technologies, Inc. has re-designed its award-winning solderless VGA & DB9 connectors allowing a better fit in panel/plate mount installs where depth is an issue.

The new patent-pending CD-SLIM15F (HD15 female) and CD-SLIM9F (DB9 female) are 30% shorter than the original version. Perfect for floor

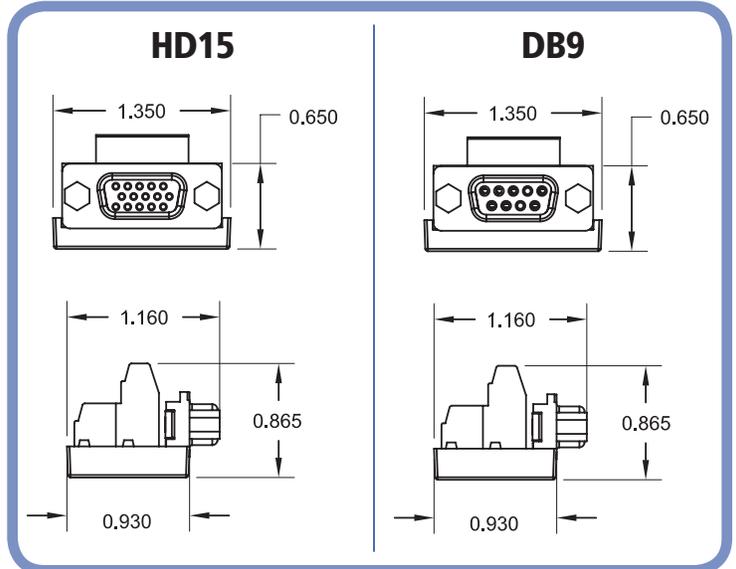

boxes, table boxes, wall plates or any place where cable bend radius problems occur.

The BTX Slim connectors have a rear terminal block in place of the standard solder or crimp connection. This innovative solderless design eliminates the need for soldering and allows you to terminate the HD15 in less than 9 minutes and the DB9 in less than 2.5 minutes. Best of all, it is less than 1" behind the plate!

Features:

- 30% shorter than original version
- Takes up less than 1" behind plate*

Dimensional Drawing(s):

*wall plate sold separately.
