**Room 70 G2 Dual and Lightware LWARE-CSHARE-01**

For USB Passthrough – with Inogeni 4KXUSB3 at table.

**Line drawing**

- Typical microphones
- **4KX-PLUS INSTALLATION**
  - The advantage to placing the dongle at the table is twofold:
  1. It is not necessary to extend USB
  2. If more than one computer is used for USB Passthrough, the Lightware or other switcher can also be at the table, simplifying wiring.

**Note**: Where the IVR is located.

**Room 70D**

**COLOR KEY**
- HDMI
- FSR Digital Ribbon Cable
- USB
- Analog audio
- Link-local
- LAN

**Located at table**

- See Audio Console config embedded audio

**Extended wiring**

- Optional third screen

**Located at wall**

- 2-4 Laptops for Presentation and USB Passthrough

**Note**: If your Windows laptop has only USB-C, you will need one of these adapters for HDMI and USB-A.
