

KRAMER

EDU-Hybrid-1

Windows-Based Hybrid Classroom Solution

EDU-Hybrid-1 is a Kramer Classroom Solution that provides the foundation components for your hybrid classroom. EDU-Hybrid-1 provides complete hybrid classroom flexibility and compatibility with any Windows™ based video conferencing solution. Easily connect and present lessons from any wireless device to in-class and remote students. Dual display support creates an immersive learning environment with a dedicated screen for video conference participants, and a second separate screen for sharable lesson content. Complete your hybrid learning system with your choice of displays, cameras, microphones, speakers, and other AV peripherals.

This solution includes: VIA Campus² and VSM (VIA Site Management) Cloud-Based Subscription for 3 years
