

INOGENI CAM230

Applications

The CAM230 camera selector (switcher) can be used for a wide variety of applications. It engages a dynamic presentation for HyFlex classroom webinars or live-streaming. Maintain the flow of your presentation by switching cameras.

INOGENI CAM230

Applications (continued)

Lecture room

The CAM230 is the perfect solution for lecture rooms, offering optimal experiences for online collaboration and presentations. With the ability to switch between three different camera feeds (2x USB and 1x HDMI), the CAM230 allows you to keep the flow of your presentation by switching cameras hassle-free.
